Financial.

NEW YORK Jan, 13 -The Post in its financial article to day, says the general stock market under their flucres of the news from Washing-ton respecting retunding started off very strong and in the main has been so since, although the market has been feverish and there have been intervals of weakness and come apprehension respecting the effect of the telegraph speculation on the general list. It perhaps should go on the record that no great speculative movement in Wall street ever caught so many professional speculators in the trap as has the present speculation in Western Union telegraph. The profits of it have been made by comparatively few, the loosers have been many and the amounts lost have been large in every instance, the advance from 83to 1141 having been so rapid, and in the aggregate they have been immense; it is not strange therefore that the cursing among the speculative fraternity is loud and doop. The money market is easy at 5a6 per cent on call, 4a5 per cent on time and 5a51 per cent on prime mercantile paper.
